MEMORANDUM No.5344/47-3, dated the 5th February 1948.

---

POST WAR RECONSTRUCTION - Land Colonisation Scheme for ex-servicemen - Expenditure on road and building works - Accounting procedure - Instructions.

From the Chief Engineer (Highways), Madras No.536-G/47-5, dated 18th June 1947.

---

It has been brought to the notice of Government that the Collectors who incurrix expenditure on road works relating to land colonisation schemes for ex-servicemen are drawing funds from the treasuries on contingent bills, though the charges are debitable to Public Works Grant as works expenditure and that such bills are not being properly adjusted against the final heads of Account in the Treasury Accounts. In order to avoid irregular classification by Collectors and to ensure the adoption of a uniform procedure in the accounting of the expenditure in question, the Chief Engineer (Highways) has suggested that the contingent bills drawn by the Collectors concerned may be debited to "P.W. Remittances III - Other Remittances - Highways Department" in the Treasury Accounts and that the debit may be advised to the Divisional Engineer in whose jurisdiction the works are executed for adjustment in his Divisional accounts to the final head. The Chief Engineer (General, Buildings & Defence) and the Accountant-General, Madras who were consulted in the matter, recommend the adoption of this procedure in respect of both building and road works, as land colonisation schemes comprise both classes of works. The Government therefore accept their recommendation and direct that all Collectors who are concerned with the execution of land colonisation works should follow the above procedure in respect of the expenditure incurred on both road and/or building works included in the land colonisation schemes for ex-servicemen and intimate the fact to the Divisional Engineer of the Highways Department in respect of road works and/ or the Executive Engineer of the Public Works Department in respect of building works, as the case may be. They also direct that the same procedure should be followed in respect of payment of rents for buildings occupied by the Sub Regional Employment Exchanges and that the expenditure on this account as well as on account of building works should be debited to "P.W. Remittances III - Other Remittances - Payments on account of Public Works Department."

2. The above arrangement will be in force until the transfer of the administrative control of ex-servicemen's co-operatives from the Regional Directorate of Resettlement and Employment to the Registrar of Co-operative Societies has been completely effected when the administrative control of the societies in the districts will be exercised by the Deputy Registrars of the district concerned. The Chief Engineer (Highways) and Chief Engineer (General Branch) are requested to report, as early as possible, in consultation with the Registrar of Co-operative Societies, what modifications to the above instructions will...

will be necessary with reference to para 8 of G.O.No.39 Public (Re-settlement), dated 7th January 1948.
